Hail! Alma Mater

Hail to thee, Maryland!

Steadfast in loyalty,

For thee, we stand,

Love for the Black & Gold

Deep in our hearts we hold,

Singing thy praise forever,

Throughout the land.

WINTER COMMENCEMENT / DECEMBER 20 & 21, 2016

Congratulations on your graduation from the University of Maryland! This is a milestone that should bring great pride to you, your family and friends.

I am certain that your time at the University of Maryland has been filled with fearless ideas, friendships and opportunities. As president of this great university, I want to express my hope that you have explored new areas and discovered new talents. The world is waiting for you to share them.

As you move beyond the campus, I hope you will remember the intellectual curiosity and drive that inspired your time here. Graduating does not mean that learning has come to an end. It means that you are now equipped to take charge of your own learning. This is a privilege and a profound responsibility. Society's advancement will depend upon your knowledge and your leadership.

As you leave us, you can take with you the pride we all feel in your accomplishments as scholars, artists, athletes and leaders. You have enriched the university's life and have helped it to climb to a new level of distinction. We welcome you into the alumni family, a truly special group.

I hope that you stay connected to the University of Maryland and take full advantage of being an alum. Stay involved with us and help new generations of students develop their futures. You can do this by returning to campus often, starting with Maryland Day 2017, on April 29.

You have my very best wishes for all your future plans. Make your mark. But wherever your future path takes you, please remember that you will always be a TERP. I hope you will always stay in touch. Go Terps!

Sincerely,

Wallace D. Loh, *President*

On behalf of the University of Maryland Alumni Association, congratulations on your milestone achievement!

Today you become members of a distinguished group: University of Maryland alumni. Like you, we all exhibited discipline, commitment, determination and leadership in our academic studies, as well as in our campus and community activities. After departing College Park and applying these qualities in other aspects of our lives, we saw doors open wide to opportunities once unimaginable. You too will carry these qualities and we trust they will lead to great accomplishments and success.

Now it's time for you to focus on your future. And as you do, we ask that while on your journey, you take the time to look back upon this great alma mater and reflect on the value of your experiences, many of which were made possible only through Maryland alumni contributing time, money and talent. Be encouraged! You too will one day leave your own legacy and make a contribution that will enhance the experiences of those who follow. The single first step in making such a lasting contribution is joining the Alumni Association.

While this phase of your life is concluding, your relationship with the University of Maryland continues. The Alumni Association can help you stay in touch with friends you made on campus, prepare you for career and networking opportunities, keep you informed about alumni and university news, and more.

It is our hope that as an alumnus you will display your degree proudly and continue the tradition of demonstrating to the world the high-quality education it represents. In turn, Maryland will continue to educate the country's brightest students, pursue cutting-edge research, encourage innovation and entrepreneurship, explore the arts and defend our athletic titles. Maryland will continue to be fearless in everything it does and will always make you proud to be a Terp!

Stay active. Stay informed. Stay connected. Stay fearless.

Sincerely and with gratitude,

Wanda A. Alexander '81

Speaker Biographies

JACOB LOWENSTEIN
STUDENT SPEAKER

Jacob Lowenstein came to the University of Maryland from Skokie, Ill., eager to see the East Coast—and to undertake a first-class education. Now, as he leaves College Park with degrees in accounting and finance, Lowenstein hopes to continue a "college" mindset that allowed him to spend four years tapping into his business and artistic sides.

"Maryland was really tough on me in the best way possible. It taught me to take ownership of myself," he says. "There's a whole world out there—you have to explore it."

Lowenstein's most defining campus experience was as a founding member and treasurer of the Zeta Beta Tau fraternity. He designed and managed a budget, collaborated with national representatives and helped recruit new members to strengthen the fledgling chapter.

"That was when I really learned how to work with people," he says.

Lowenstein also gained plenty of practical experience working as a data analyst for the Jewish United Fund and interning with Victory Park Capital LLP and KPMG LLP. In January, he will join KPMG as a tax associate, with a goal of becoming a certified public accountant.

Lowenstein also plans to continue following his passion for the arts. While at Maryland, he wrote two feature-film screenplays and had one accepted into the Vancouver Lift-Off Film Festival, which supports emerging talent in independent cinema.

"This is about me growing and learning and progressing from my mistakes," Lowenstein says. "That's the only way I can truly mature."

DAVID M. BAGGETT '92
COMMENCEMENT SPEAKER

An innovative thinker who has been writing software since childhood, Dave Baggett is always searching for new ways that technology can solve everyday, practical problems.

The son of an electrical engineer and cookbook writer, Baggett earned degrees in computer science and linguistics from the University of Maryland in 1992. By the time he graduated, he had already founded companies that designed video game development systems and published interactive fiction.

While pursuing his master's degree at the Massachusetts Institute of Technology, he became part of the team behind the groundbreaking and wildly popular Sony PlayStation video game "Crash Bandicoot." Besides giving Sony a mascot, the game series from Naughty Dog Inc., where Baggett was a programmer and vice president, was pioneering in its graphic speed and detail.

In 1997, Baggett co-founded ITA Software, which revolutionized how people could travel with the help of cheaper and more powerful computer programs. By assisting airlines like America West and websites like Orbitz, the company's software greatly expanded the choices and convenience of booking flights. As COO, Baggett oversaw software development, operations and customer relations, expanding the company from 20 employees to more than 500, with revenue topping $70 million a year. In 2011, Google acquired ITA for $700 million.

More recently, Baggett, founder and president of Arcode Corp., has focused his creative and entrepreneurial spirit on email and messaging: his new startup's product Inky makes it easy for anyone to encrypt their email with any mail account, ensuring confidentiality and preventing identity theft and phishing attacks.

Baggett also sits on the boards of the University of Maryland College Park Foundation and the College of Computer, Mathematical, and Natural Sciences.

Named a distinguished alumnus by both the College of Arts and Humanities and the Department of Computer Science, Baggett has supported undergraduate scholarships and post-baccalaureate fellowships at UMD in linguistics research.

THE ALUMNI HALL OF FAME

The Alumni Association's Hall of Fame honors university graduates who have brought honor to their alma mater through distinguished careers in a variety of disciplines. The Hall of Fame induction ceremony takes place once every five years, with the last group of honorees being inducted in June 2015. The following 67 individuals have shown the world what it means to be a Terp.

Doctoral Degrees

The doctoral degree is the most advanced earned degree conferred by American institutions. There are two distinct types: the practitioner's degree and the research degree. The first type represents advanced training for the practice of various professions, principally doctor of audiology, doctor of medicine, juris doctor, doctor of pharmacy and doctor of veterinary medicine. These degrees do not involve the completion of original research by the student. The University of Maryland, at the professional school in Baltimore, awarded the first two dental degrees on March 9, 1841.

Master's Degrees

The master's degree is an academic honor bestowed upon students who have successfully completed work beyond the baccalaureate. A thesis and an oral examination are usually required. In 1920, the University of Maryland awarded its first Master of Arts and Master of Science degrees in fields other than agriculture.

Bachelor's Degrees

The bachelor's degree represents the completion of a four-year course of college-level study and is the oldest academic degree awarded by American institutions of higher learning. Maryland Agricultural College, which later became the University of Maryland, College Park, awarded its first Bachelor of Arts and Bachelor of Science degrees in 1862.

Note: Latin Honors published in the commencement program are tentative and unofficial, pending the submission and calculation of all final grades for the semester of commencement.

Special Recognition

SENIOR MARSHALS

The Senior Marshal Program began in 1991 as an opportunity to acknowledge outstanding seniors at their commencement. The students selected to be marshals were nominated by faculty, administration and staff for their outstanding accomplishments and contributions to the University of Maryland. We are proud to recognize these truly remarkable students.

An extra special thanks go to the Office of the Registrar and the Graduate School.

A heartfelt thanks go to the many volunteers who assist with the campus-wide and individual college and school ceremonies. These efforts are greatly appreciated.

The December 2016 class roster comprises degree candidates from the graduate and undergraduate programs at the University of Maryland, College Park. As final action cannot always be taken for candidates by the time this program is printed, the list of candidates here is tentative. The university reserves the right to withdraw or add names. Diplomas (for other than doctoral degrees) will be mailed by the Office of the Registrar.
